## SYDNEY'S MOST TRUSTED NAME FOR PUMPS

**IT'S TIME YOU CALLED PRIME 1300 443 335**  
**service@primepumps.com.au | sales@primepumps.com.au**

Since 1990 Prime Pumps has been filling Sydney's pump service market with confidence with its ability to solve problems when others can't.

**We know pumps, we understand their role in a system and we know that quality matters!** We design, select and install pumping systems correctly the first time round to maximise their performance so you can achieve lower life-cycle costs.

**OUR VISION IS TO SUPPLY AND MAINTAIN A PUMP IN EVERY BUILDING.  
WE MOVE TOWARD ACHIEVING OUR VISION BY PROVIDING THE  
BEST SERVICE IN THE BUSINESS.**

There is no substitution to Prime Pumps' care and commitment for our customers. Our unrivalled knowledge and passion for pumps and professional approach to all that we do is evidenced by our growing customer base who return to us time and time again to assist with other properties in their portfolio.

Being Sydney's most trusted name in pumps hasn't happened by accident!

Our staff are the  
**highest** and most  
**broadly trained**  
of any pump company **in Australia**

All of our staff complete internal training courses and rotate among departments to gain the entire range of competencies required to fulfil our mission. We are committed to developing our rich pool of talented employees to maintain our position as Sydney's most trusted name in Pumps.

# SALES AND MANUFACTURING

Prime Pumps leads the supply of Sydney's fire sprinkler pumpset market offering an up to 10 year diesel engine warranty on selected diesel engines giving our customers great confidence.

Over 300 years of staff's combined experience producing quality pumpsets has defined our strategy. We remain Sydney's best cost supplier of high quality and highly reliable pumpsets. Partnering with the best brands and expert pump and driver combination selection ensures Prime Pumps delivers pumpsets which perform post warranty periods.

Experience the long-term difference and let Prime Pumps help you build your business.
